MAIN FEATURES

ETC – Electronic Time Card is a complete time and attendance recording system comprising a *CLOCK* with a touch screen colour graphic display, and two RFID card readers by which *IN* and *OUT* transactions of employees are logged.

ETC revolutionizes the traditional concept of a time recorder: no mechanical clock, and no paper cards — instead, hardware and software making up a completely electronic system.
With its simple and elegant styling, **ETC** provides a user-friendly and flexible interface allowing acquisition of attendance data and input of justifications, in total compliance with current privacy laws.

ETC is also *EASY* to install: simply decide where the clock needs to be positioned... and it will be ready for use.

ETC is *SECURE:* an automatic back-up system is programmed to save and protect all recorded attendance data in any eventuality.

ETC is *FLEXIBLE:* the system can be expanded to meet the changing needs of the organization.

A COMPLETE SYSTEM

ETC is a complete HARDWARE and SOFTWARE system generously specified with advanced functionalities, able to meet all the time and attendance recording needs of SMEs.
The system is supplied with 27 CARDS (2 x administrator, 25 x user)

NEXT GENERATION HARDWARE

• Touch-Screen display
• Expandable Memory with USB Pen drive
• Proximity badge technology
• GSM/GPRS modem option
• Integrated Ethernet connectivity (future evolution)

CUSTOMIZABLE SOFTWARE

• Collection of attendance/absence data
• CARD management by system Administrator
• Association of CARDS with personal details of employees
• Allocation of employee PIN
• Date and time management
• Multilingual
• Printout of employee card directly from .TXT file
• Selection of number of months retained in memory
• Option of associating audible signal (start/end-of-shift bell)
• Transfer of data on pen drive to .TXT and .CSV type archives
• Transfer of data to consultant/association for payroll computation from .CSV file
• Definition of rounding rules for totalization of hours attendance

Electronic Time Card -ETC- records the attendance of employees in compliance with the ordinances of the Data Protection Authority, preventing any unlawful disclosure of personal data and safeguarding the work provider.
Advanced technological functionalities and elegant design in a single time and attendance recording system: **ETC responds perfectly to the privacy compliance needs of small-medium enterprises.**
