 **ZUCCHETTI**

Manage staff
the smart way!

Enjoy the benefits of managing
employee activities more easily
with People Smart, the
application designed for
small businesses,
like yours!

easy

clear and intuitive graphic layout.

digital

less paper and Excel sheets,
to reduce errors, time and costs.

safe

highest levels of security
and privacy in data management.

always with you

use on your PC, tablet or smartphone.

A complete platform
to manage all staff-related needs.

ATTENDANCE AND LEAVE

From smartphones or PCs, with or without badges, on site or remotely - you choose the most suitable system for your employees to clock in and out.

EMPLOYEE FILE

Looking for a document or information? All documents, CVs, courses and deadlines are stored in one place, to give you an overview of each employee.

ATTENDANCE AND ABSENCE CALENDAR

Plan absences, check counters, enter supporting documents (including on behalf of your employees) so you can have an immediate view of the group's availability.

EXPENSE REPORTS AND REIMBURSEMENTS

Your collaborators enter the request, you approve it and the refund arrives directly in the paycheck. And you can keep all travel costs under control!

your accountant will be happy too!

Thanks to the integration of People Smart with **Zucchetti Payroll software**, your accountant automatically receives attendance data for payslip processing. And with a simple click, at the end of the month, payslips are sent to all your workers.

Where can you find a payslip? Simple, right in the People Smart app!

and for you who are always looking for more

Real-time monitors, meal voucher management, Travel Policy, corporate credit cards, analytics... and much more!

ACTIVITIES, ORDERS AND COST CENTRES

Employees enter the activities carried out in real time or in the final balance. And you can easily monitor and export the hours worked on each job or by individual employees.

SHIFT PLANNING

Forget about communication problems with your employees: optimise the organisation of shifts and publish the calendar, including on the mobile app!

ACCESS

Personnel, visitors or vehicles: automatically manage and control entry into the company premises, authorisations and validity periods.

Off-site workers or workers
with no PC?
The People Smart app
takes care of it!

Clock in and clock out.

Consult your documents (payslips, CU documents, cards).

Enter leave periods and supporting documents.

View your counters.

Read company communications.

Enter the start/end time of the activity in real time.

Check the shift calendar.

And with a photo on your receipt, start the reimbursement
process!

if in doubt,
ask the virtual assistant!

Ask your question and the virtual
assistant will answer you in real time
when you need it: simple, immediate
and available 24/7.

Innovate the way
you clock in/out
with the People Smart app!

Different clocking in/out
methods to meet the needs
of your workers.

GEOFENCE MOBILE APP

Geolocated clocking in/out through the app,
with full privacy mode and without physical
devices. Even when remote working and
Smart Working!

BLUETOOTH BEACON

Position yourself in the Beacon's coverage
area, open the app and clock in (or out)
comfortably using Bluetooth technology!

TAG NFC

Simply bring your smartphone closer to the
Tag to clock in or out, as if you were swiping
a badge.

**And for people who don't want
to use their smartphone?
There's a badge!**

To record start and end of activities
from fixed detection terminals.
